Space-Saving Solutions with Lifetime Warranties!

Overview

The Deluxe Computer Workstation features a modern Euro-design with ergonomic features ideal for office use. It is an integrated monitor, CPU, printer and keyboard stand with an extended area on the left or right for a mouse. A super-strong 200-pound (91 kg) weight capacity will hold all your equipment in one convenient place and it assembles in just 15 minutes!

The Telephone Arm opens up valuable desk space in your office. It provides a universal fit for most telephones. The skid-resistant surface makes sure the phone stays in place mounted on your wall or desk. The full-length extension of the Telephone Arm is 19.5 inches (49.5 cm) and full-circle swivel is 360 degrees.

Another space-saving device is the Monitor and CPU Holder. The flexible and adjustable Monitor Arm allows easy movement of your monitor and thus saves valuable desk space. It is compatible with 12" and 14" monitors.

The CPU Stand allows you to remove your CPU from your desk and thus save space by hanging it in convenient out-of-the-way places. Its adjustable width fits all standard CPUs.

The combination of Monitor Arm with the CPU Stand provides an elegant and modern, space-saving solution for every office or work station. Both the Monitor Arm and CPU Stand are made of steel, thus guaranteeing increased stability.

They clamp to desktops up to 3 inches (7.6 cm) thick and the Monitor Arm has a 66-pound (30 kg) strength capacity. A convenient chrome slide-out arm is provided for the keyboard. The Monitor Arm and CPU Stand are available separately.

Now, move your keyboard out of the way when you are not using it with a Desktop CPU/Keyboard Holder or Under-Desk Keyboard Mover.

The Desktop CPU/Keyboard Holder allows you to save space by tucking your keyboard under the monitor. It fits standard and extended keyboards and the tray also serves as a wrist rest!

The sliding tray is reinforced and equipped with spring locks. This durable steel holder also serves as a CPU holder.

The Under-Desk Keyboard Mover is ergonomically designed for comfort and to save space. The platform pulls out 12 inches (30 cm) and swivels 360 degrees. The durable steel platform also features smooth springlock slides for ease of movement. The wrist support is padded for extra comfort.

Key Features

- ▶ For the ergonomic office—the strongest portable computer and printer desk
- ▶ Convert your desktop into a workstation with high-quality accessories
