

# ServView™ II Ultra Buyer's Guide

- Control all your mounted servers right at the cabinet or rack — and reduce clutter in your server room!
- Choose from models with connections for PS/2® or USB keyboards and with trackball or touchpad mice.
- Occupies just 1U of space, and it's simple to install and use. Just slide it out and flip up the flat screen.
- Features 17" multisync TFT/LCD monitor that supports resolutions of 1280 x 1024 at 75 Hz.

## How to order a ServView II Ultra:

**Step 1** Pick a tray with either a PS/2 or USB-style keyboard.

**Step 2** Decide on your type of mouse: trackball or glidepoint touchpad.

**Step 3** Decide whether you want it shipped with or without an 8-port ServSwitch brand KVM switch built in.

**Step 4** If you do want a ServSwitch included, choose the specific model based on platform (PC or a mix of PC, Mac®, and Sun® CPUs) and the number of users.
